

## Meeting Agenda

Group: Yayeet Group Consulting, Group 5

Date: 10-09-2019

Chair: TBD

Participants: Alexander Ohlin, Aaron Sandgren, Rasmus Rosengren, Dino Pasalic, Carl Holmberg

### Objectives (5 min)

- Create a domain model for the application.
- Decide on items in first sprint backlog.

### Reports (15 min) from previous meeting

- No individual work has been done.

### Discussion items (35 min)

- What are different nouns and verbs that can be extracted from the user stories?
- How do we delegate work among members for the rest of the week?
- What problems are currently stopping work from being done?

### ## Outcomes and assignments (5 min)

#### Outcomes:

- The team has created a domain model which is in an almost presentable state.
- The team has had its first sprint meeting and has assigned different tasks for this sprint.

#### Assignments:

Carl and Rasmus will set up the initial work for project work to begin.

Carl will also refine the domain model's design.

All members will make sure that they have Android studios installed.

Lastly, all members will make a button that can be interacted with in the project.

## End of Meeting

Next meeting is the supervisor meeting and will be held on 12/09/2019.

The meeting after that is on the 16/09/2019.
