Meeting Agenda

Group: Yayeet Group Consulting, Group 5
Date: 16-09-2019
Chair: TBD
Participants: Alexander Ohlin, Aaron Sandgren, Rasmus Rosengren, Dino Pasalic, Carl Holmberg

Objectives

- Is the domain model done?
- Is everyone ready to start actually working?

Report from previous meeting

- Aaron: Has fixed Java 8.1 so that we can use lambdas.
- Carl: Integrated Travis to the project.
- Alexander: Started writing the RAD and added more acceptance criteria/tasks.

Discussion items

- Domain model, done.
- Who makes design UML and paper prototype?
- Style guide?

Outcomes and assignments

- Outcomes from discussion items. Write down what's decided and why it was
- (re)Assign to each group member which issues to solve.

Outcomes:

We have decided to get account creation and login done this week. Therefore, we have assigned different tasks to members to prepare for coding.

Assignments:

Alexander and Dino will make a paper model/wireframe.
Aaron will make a style guide for coding.
Rasmus will make a UML chart.
Carl will start with the initial coding.

End of Meeting

- No unresolved issues as of this meeting.
- The next meeting will be 18-09-2019
